

## Full Complement Cylindrical Roller Bearings for Crane Sheaves

NSK's Full Complement Cylindrical Roller Bearings for Crane Sheaves feature high performance seals, inner and outer ring re-lubrication holes and a highly corrosion resistant phosphate coating.

### Product Features

- Improved contact seals
- High load rating
- Highly corrosion resistant phosphate coating
- Easier grease re-lubrication
- Inner and outer ring re-lubrication holes
- Bearings pre-greased with Lithium grease
- Can be fitted with DIN 471 snap rings

### Benefits

- Contact seals prevent ingress of foreign particles or water
- Increased radial and axial capability
- Re-lubrication holes for easy maintenance & grease replenishment
- Can be used in external environments due to coating
- Snap ring (DIN 471) can be applied to the outer ring

### Condition Description

- Contamination
- High Load
- High Speed
- Lubrication

### Industries

- Material Handling
- Quarrying, Mining and Construction

RS-50xx DS E7 NA S5 C3

#### Description

RS-50xx	Basic Number
DS	Contact Seal
E7	Lubrication Groove in Outside Surface
NA	DIN 471 Compliant
S5	Phosphate Surface Treatment
C3	Radial Internal Clearance
