

Triple-Lip Sealed Inserts

NSK's Triple-Lip Sealed Inserts - available for both setscrew and eccentric locking collar insert options - are perfect for applications where bearings are exposed to heavy dust and water contamination.

Product Features

- Nitrile rubber triple lip, bonded to protective pressed steel shield
- Available for both setscrew and eccentric locking collar insert options
- Large size range offered, including imperial options
- Inserts interchangeable with standard items

Benefits

- Longer bearing life through superior seal performance
- Extended relubrication intervals, greatly reducing maintenance costs and increased productivity of machinery
- Simple implementation; ready replacement for existing bearing units
- Mounting on the shaft with balled setscrew, providing much greater resistance to loosening

Condition Description

- Contamination
- Corrosive Environment

Industries

- Chemical and Pharmaceutical
- Food and Beverage
